Daily data

Day	Trades	Result	Note	Begin
2017-09-07	1	455	Started with a solid lucky win, then missed only 1 agri opp. Also missed 1 GC MR opp around 16:10 because of distractions :/	-
2017-07-07	4	393	Did one standard momentum, and then 2 cocky emotion trades at the worst possible time. Had luck to exit break even.	-

Day	Trades	Result	Note	Begin
2017-06-19	1	385	Was careful and waited for good opportunities. Missed some in the evening around 20:00 but was tired and went out for a walk	-
2017-11-30	2	300	Had a so-so agri trade, then nailed AN AMAZING CL M trade for 31 ticks / 9 seconds. Great stuff.	-
2017-12-18	4	287	Monitored the premarket too to see if some LT trends, played one but was false. Then had patience with a L trade, although at the end couldn't wait more. Good day overall, maybe tides are turning	-
